Encyclopedia of Earth Sciences Series

ENCYCLOPEDIA OF SOIL SCIENCE

Volume Editor

Ward Chesworth is Professor Emeritus of Geochemistry at the University of Guelph, Ontario, Canada. He co-edited *Weathering, Soils and Paleosols*, and three volumes of the annual Hammond Lecture Series broadcast in part by the Canadian Broadcasting Corporation: *Malthus and the Third Millennium*, *Sustainable Development*, and *The Human Ecological Footprint*. He co-wrote *Perspectives on Canadian Geology*. In 2003 he received the Halbouty Prize of the Geological Society of America, of which he is a Fellow.

Aims of the Series

The *Encyclopedia of Earth Sciences Series* provides comprehensive and authoritative coverage of all the main areas in the Earth Sciences. Each volume comprises a focused and carefully chosen collection of contributions from leading names in the subject, with copious illustrations and reference lists.

These books represent one of the world's leading resources for the Earth Sciences community. Previous volumes are being updated and new works published so that the volumes will continue to be essential reading for all professional earth scientists, geologists, geophysicists, climatologists, and oceanographers as well as for teachers and students. See the back of this volume for a current list of titles in the *Encyclopedia of Earth Sciences Series*. Go to <http://www.springerlink.com/reference-works/> to visit the "Earth Sciences Series" on-line.

About the Editors

Professor Charles W. Finkl has edited and/or contributed to more than 8 volumes in the *Encyclopedia of Earth Sciences Series*. For the past 25 years he has been the Executive Director of the Coastal Education & Research Foundation and Editor-in-Chief of the international *Journal of Coastal Research*. In addition to these duties, he is Principal Marine Geologist with Coastal Planning & Engineering, Inc. and Research Professor at Florida Atlantic University in Boca Raton, Florida, USA. He is a graduate of the University of Western Australia (Perth) and previously worked for a wholly owned Australian subsidiary of the International Nickel Company of Canada (INCO). During his career, he acquired field experience in Australia; the Caribbean; South America; SW Pacific islands; southern Africa; Western Europe; and the Pacific Northwest, Midwest, and Southeast USA.

Professor Michael Rampino has published more than 100 papers in professional journals including *Science*, *Nature*, and *Scientific American*. He has worked in such diverse fields as volcanology, planetary science, sedimentology, and climate studies, and has done field work on six continents. He is currently Associate Professor of Earth and Environmental Sciences at New York University and a consultant at NASA's Goddard Institute for Space Studies.

Founding Series Editor

Professor Rhodes W. Fairbridge[†] has edited more than 24 Encyclopedias in the Earth Sciences Series. During his career he has worked as a petroleum geologist in the Middle East, been a WW II intelligence officer in the SW Pacific and led expeditions to the Sahara, Arctic Canada, Arctic Scandinavia, Brazil and New Guinea. He was Emeritus Professor of Geology at Columbia University and was affiliated with the Goddard Institute for Space Studies.

Contents

List of Contributors	xvii	Agroecology	33
Preface	xxv	Agroecosystem	33
A Horizon	1	Agrogeology <i>Nikola Kostic</i>	33
Abiotic	1	Agronomy	35
Abrasion	1	Albeluvisols <i>Otto Spaargaren</i>	35
Abrupt Textural Change	1	Alisols <i>Otto Spaargaren</i>	35
Absorption	1	Alkali	37
Acid Deposition Effects on Soils <i>Randy A. Dahlgren</i>	2	Alkaline Soils <i>Ward Chesworth, Felipe Macías Vázquez, and Marta Camps Arbestain</i>	37
Acid Soils <i>Felipe Macías Vázquez, Marta Camps Arbestain, and Ward Chesworth</i>	7	Alkalization	39
Acid Sulfate Soils	10	Allitization	39
Acidity <i>Wayne P. Robarge</i>	10	Allogenic	39
Acids, Alkalis, Bases and pH	21	Alluvium	39
Acrisols <i>Felipe Macías Vázquez</i>	22	Andosols <i>Olafur Arnalds</i>	39
Activity Ratios <i>Bryon W. Bache</i>	24	Anthropogenic	46
Adobe	27	Anthrosols <i>Otto Spaargaren</i>	47
Adsorption	27	Arenosols <i>Otto Spaargaren</i>	48
Aggregate	28	Argillaceous	49
Aggregate Stability to Drying and Wetting <i>W. W. Emerson</i>	28	Argillan	49
Aggregation <i>Roger Hartmann</i>	30	Arid	49
Agrichemical	33	Arrhenius' Equation	49
